

## CURRICULUM COMMITTEE AGENDA FOR OCTOBER MEETING

1. Select chair for 2008-2009.
2. Welcome student representation.
3. Organize urgent activities
  - a. Policy/Procedure. Subcommittee must reconcile with senate and president's changes, get Paul Jackson into policy, and advise us on how to get IMAP related activities oversight into our working methods.
  - b. ME Program Review. This fall. Site visit soon, and we will have the report available promptly.
  - c. University-wide Learning Outcomes. This Fall!! For WASC accreditation and at the President's request the senate has been charged with creating a University-wide learning outcomes document this fall. Dean Jackson's view is that curriculum committee is a natural place to start the process and present to senate.
4. Notes on less urgent activities.

MT Program Review: we expect to be involved Fall 2009.

GSMA Program Review: expected to begin in Fall 2009.

BA Program Review: self study starts Fall 2009. Accreditation due 2010.

GE Program Review: start date uncertain, possibly by Fall 2009.
5. (if time) Spring Curriculum Changes: are we accepting change requests only for Fall 2010? Are there any change requests for Spring 2009 term members are aware of?
